# MAKE EVERY RIDE

BETTER WITH URJA E-SCOOTER

BEST-IN-CLASS **PERFORMANCE** ///  
THAT MATCH YOUR STYLE ///

## ABOUT US

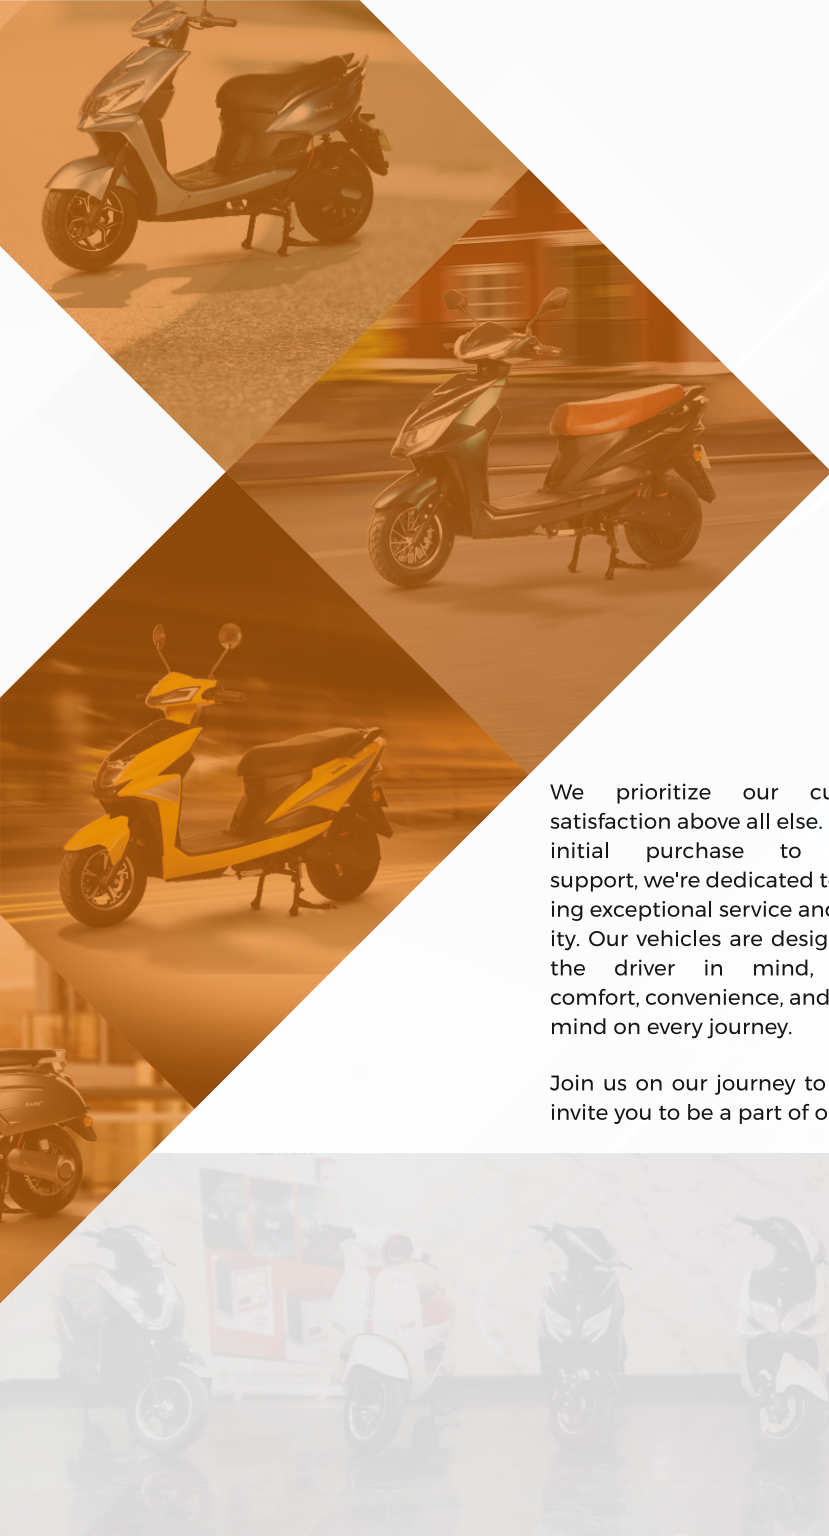

At Urja Global, we're driving the future forward with our commitment to sustainable transportation solutions. As a leading electric vehicle (EV) manufacturer, we're passionate about revolutionizing the way people move while minimizing our environmental footprint.

Our mission is to accelerate the global transition to sustainable mobility by designing and producing high-quality electric vehicles that exceed expectations in performance, safety, and innovation. We believe in a future where transportation is not only efficient and convenient but also environmentally responsible.

We prioritize our customers' satisfaction above all else. From the initial purchase to ongoing support, we're dedicated to delivering exceptional service and reliability. Our vehicles are designed with the driver in mind, offering comfort, convenience, and peace of mind on every journey.

At the heart of our company is a commitment to push the boundaries of EV technology, continuously striving to improve range, charging infrastructure, and overall user experience. From advanced battery systems to smart connectivity features, we're shaping the future of transportation. We currently offer our EV's with lead gel and lithium batteries.

Join us on our journey to a cleaner, brighter future. If you wish to collaborate, we invite you to be a part of our mission.

## SPECIFICATION

CONTROLLER	- 12 TUBE-48/60V	SHOCK FRONT	- TELESCOPIC
BRAKE	- F-DISC/R-DRUM	TYRE SIZE	- TUBELESS-F 12"/R-10'
CHARGER TYPE	- 4AMP LEAD	RIM	- F-ALLOY/R-FITED BLDC MOTOR
CHARGING TIME	- LEAD 8-9HR	SPEEDO METER	- DIGITAL SPEEDO METER
BATTERY	- 60V/32AH (GRAPHENE)	DRIVE MODE	- ECO,SPORTS,BOOST DRIVE MODE
RANGE	- 50KM-60KM	BATTERY CONTAINER	- LEAD (GRAPHENE)
MAX SPEED	- MAX SPEED 25-30 KM/HOUR	LOADING CAPACITY	- 160
DIMENSION	- 1143*1854.2*685.8MM	BODY TYPE	- ABS PLASTIC
